

Dear Developer/General Contractor:

The City of Forney Community Development Department is in the process of reviewing all aspects of its Development Review Process (DRP). A critical part of this review is to seek and obtain input from stakeholders in this process. As an initial step, the City of Forney has scheduled a meeting of development stakeholders for Monday, October 13, 2008. The meeting will begin at 2 pm and will adjourn no later than 4 pm. The location of this “Builders and Developers” focus group will be the Council Chambers at Forney’s City Hall, located at 101 E. Main Street.

The primary purpose of this focus group is to ask companies and individuals who have constructed a new building, sought a zoning change, or performed any type of construction activity their opinions of the complete experience. We are especially interested in recommendations for improving the development review process in Forney, including any concerns with Forney’s Development Standards.

There is no requirement to RSVP. For additional information, please contact Community Development at 972 564- 7381 we greatly appreciate your time and your suggestions.

Sincerely,

John H. Teel, M.S., R.S.
Interim Director of Community Development
