**Item Summary:** The City's ownership of CR212 includes the responsibility to maintain the roadway in comfortable and safe condition for the traveling public. The current condition does not meet the City's goal to ensure safety on our City streets. This project includes restoration of a ¼ mile section of this roadway, from Gateway Blvd. to Kiest Drive, which will improve roadway conditions for this City street used by Gateway residents and other traveling public.

The Restoration process will provide much improved driving surface over the next 3-5 years (possibly longer) until full street rehabilitation can be planned in the future.

Staff recommends approval of the Project Bid Advertisement in the estimated amount of \$230,000. Funding for this Project will be through the 2019 Street Maintenance Budget.
