

## Request Statement

Rusty by Design is an exclusive ecommerce business as an online estate sale that offer family's an alternative to the traditional estate sale. We have been a part of Forney for over 5 year bringing over 5,000 people to this city each year. Over company has revenue earning of over \$300K per month. We love being a part of this city.

As an area for us to expand we are looking to open a Thrift Store/Donation/Fund Raising center at 10462 US 80, Forney, TX 75126. This place will have multi functions as both a Thrifts store, selling the products that doesn't sell in our auctions as well as a donation center to recycle unwanted items for the people of this city. This purpose of our business will give the citizens a place to bring their stuff as well as help control landfills. It's a great alternative to garage sales.

Our company is part of a non-profit called 19-Ministries that helps impact cities thru city and parks projects. Because of our partnership with them, we will be able to offer tax-deductible receipts to everyone that donates to us.

One of our main services that we want to offer is our Fund-Raising program. Thru working with local church's, sports teams, schools and more, we will be able to help them raise money. This will be done thru collections of clothing, shoes and more, we in turn pay them by the pound for their collections. Our vision is to make it fun and offer additional cash prizes for the team or group that brings in the most weights. Each week we will spotlight a different group and on Saturday allow them to come and help as the people donate for one particular group or another. Our vision is to be a big part of the community, getting to know the youth and eventually offering scholarships as we move forward.

Our vision offers so much benefits for Forney. Thru our recycling program we hope to offer education and importance to recycling and the future. I hope you will be as excited as we are to the prospect we can bring to the city of Forney.
