### ZONING FILE NO. 04-13

South of US Highway 80  
Between FM 548 and FM 1641

### PLANNED DEVELOPMENT CONDITIONS

- I. **Statement of Purpose:** The purpose and intent of this Planned Development District is to provide both single family residential uses and retail/office uses that are compatible with the natural characteristics of the land, such as topography, creeks, and floodplain, based on its location and access to major roadways. This district is intended to be composed of detached single family dwellings together with parks and an amenity center and a retail/office center in order to form a viable and unique neighborhood area.
- II. **Statement of Effect:** This Planned Development shall not affect any regulation found in the Comprehensive Zoning Ordinance, Ordinance No. 1085, as amended, except as specifically provided herein.
- III. **General Regulations:**
  - A. Tract 1 (Areas A, B, C, D, E, & F) and Tract 2 (Area A): All regulations of the SF-11 (Single Family Residential) District and SF-8 (Single Family Residential) District set forth in Sections 18 and 19 of the Comprehensive Zoning Ordinance are included by reference and shall apply, except as otherwise specified by this ordinance.
  - B. Tract 1 (Area G) and Tract 2 (Area B) All regulations of the GR (General Retail) District set forth in Section 29 of the Comprehensive Zoning Ordinance are included by reference and shall apply, except as otherwise specified by this ordinance.
- IV. **Development Plans:**
  - A. The Concept Plan for this Planned Development District is attached as Exhibit "C", incorporated herein by reference for Areas A, B, C, D, E, & F in Tract 1. However, in the event of conflict between the Concept Plan and the written conditions of this Ordinance, the written conditions shall apply. Development of this District shall be in general conformance with the Concept Plan.
  - B. A Concept Plan shall be approved as outlined in Section 12 of the Comprehensive Zoning Ordinance for Area G in Tract 1 and for Area B in Tract 2. Approval of the Concept Plan shall be based on general conformance with the approved Planned Development District conditions and regulations set forth in this ordinance. Approval of a Concept Plan through the zoning public hearing process (as outlined in Section 10) is only required for Area A in Tract 2, if the property is not developed as a park.
  - C. Concept Plan approval shall be for a period of one year from the date of City Council action on the plan. If within that one-year period a site plan has been submitted for a portion of the development, then the Concept Plan shall be deemed to have no expiration date. Site plans shall be valid for a period of one year from the date of City Council action on the plan.
  - D. Site Plan – A Site Plan shall be submitted in accordance with the requirements set forth in Section 12 of the Comprehensive Zoning Ordinance. The Site Plan may be for all or any part of the land zoned GR contained within the Planned Development District.

**V. Specific Regulations (Tract 1, Areas A, B, C, D, E & F; Tract 2, Area A):**

8. Maximum building coverage as a percentage of lot area – 35 percent. Swimming pools, spas, decks, patios, driveways, walks, and other similar elements shall not be included in determining maximum lot coverage.

F. Area A of Tract 2

Development shall take place in accordance with the development standards established for the SF-11 (Single Family Residential) District in Section 18 of the Comprehensive Zoning Ordinance.

- G. Open Space/Park Fencing: - Where houses abut the internal open space or the linear park, tubular steel (wrought iron) shall be used for fencing material in order to provide an open view corridor adjacent to the open space.

- H. Perimeter Landscape Buffer Area – A landscape buffer area with a minimum width of 15 feet shall be provided adjacent to the edge of the right-of-way and adjacent to the proposed Parkway Thoroughfare (84-foot R.O W ) and the proposed Major Arterial (Alexander Parkway, 100-foot R.O W ). A minimum 10 foot wide landscape buffer area shall be provided adjacent to the rights-of-way of FM 548 and FM 741 Within the required 15-foot buffer areas, an eight-foot wide curvilinear sidewalk shall be provided. Within all required buffer areas trees shall be planted at a rate of eight (8) trees per 10,000 square feet of area. Berms and additional landscape materials, including a variety of tall evergreen

shrubs, shall be provided within the buffer area to help achieve the purpose of screening lots backing to these arterials. A screening/landscaping plan shall be submitted for review and approval either prior to or along with any final plat application. Landscape buffer areas shall be maintained by a Homeowners Association.

- I. Perimeter Screening and Fencing – A solid masonry screening wall with minimum height of six (6) feet shall be provided at the rear lot line of residential lots adjacent to FM 548, FM 741 and the proposed Major Arterial road (Alexander Parkway). An upgraded, stained cedar wood fence (board-on-board, with brick or stone masonry columns at 40 feet on center, with a distinctive wood cap) with minimum height of six (6) feet shall be provided on the common boundary between the landscape buffer area and the residential lots along the proposed Parkway Thoroughfare. This fence shall be supported by galvanized steel posts in the spans between masonry columns, and the support structure of the fence shall face toward the individual residential lots. The fence shall be maintained by the Homeowner's Association.
- J. Linear Park Land and Open Space – Within the development, the areas along the existing drainage way, totaling approximately 17 acres (including floodplain) shall be provided for open space and development of a trail system and linear park. All open space areas, including the screening/landscape buffer along the arterials and parkway thoroughfares, shall be conveyed to a Homeowner/s Association which shall be responsible for the maintenance of these open space and buffer areas, the perimeter fences and walls, and landscaping within street medians. The linear park system shall be dedicated to and maintained by the Homeowners Association.
- K. Exterior Residential Finish Materials – A minimum of ninety (90%) percent of the first story of all wall surfaces of all residences, excluding window and door openings, shall have an exterior of brick, stone, or other standard masonry material, per the City's Zoning Ordinance, as amended (the use of stucco, EIFS, or other similar applied finish shall not qualify as "standard masonry"). The masonry requirement for each residence shall be more or less evenly distributed around all facades of the house.
- L. Landscaping – Each residential lot shall have a front yard that is solid grass sod, and shall have eight (8) 3-gallon shrubs from the approved list, and two (2) 3-inch caliper trees installed in the front yard prior to certificate of occupancy. Caliper shall be measured as diameter at three feet from ground level.
- M. Fencing – Residential lot fencing shall be in accordance with the Comprehensive Zoning Ordinance. Any private fence facing a public street shall have the wood fence pickets (finished side) located on the street side of the fence support structure.
- N. Roof Pitch – The roof pitch of the homes shall be a minimum of 8:12 for gabled or hipped roofs only.
- O. Roofing Materials – Roofing materials shall be at least 25-year, textured composition (i.e., dimensional) roofing with a minimum 230 pound shingle strength and a minimum of ½ inch roof decking.
- P. Mail Boxes – Mail boxes shall be similar in style throughout the village and constructed of masonry or be a custom design (non-masonry).

- Q. Chimneys – All chimneys shall be one hundred (100%) percent masonry
- R. Street Elevation Residential Design Features – Each residence constructed in shall include at least one (1) of the following design features:
  - 1 The elevation of the structure (including any garage) facing the street shall contain at least one section of at least twenty (20%) percent of the total street elevation that is offset at least three feet from the remainder of the street elevation.
  - 2. The plate line of the exterior wall facing the street shall contain at least one section of at least twenty (20%) percent of the total street elevation that is at least one foot higher than the remainder of the plate line of the exterior wall facing the street.

**VI. Specific Regulations (Tract 1, Area G; Tract 2, Area B):**

- A. Height, Area and Yard Regulations:
  - 1 Maximum building height shall not exceed 50 feet except for special architectural features which may not exceed 68 feet in height. Maximum number of stories is 4
  - 2. Minimum lot area shall not be less than 5,000 square feet except for approved kiosks and ATM buildings.
  - 3. Minimum lot width shall be 50 feet.
  - 4 Minimum lot depth shall be 100 feet. There shall be no maximum lot depth.
  - 5. Minimum front setback shall be 25 feet from street right-of-way line. Where property has frontage on more than one street, one street frontage may be treated as a side boundary
  - 6. Minimum side and rear setbacks shall be 15 feet from street right-of-way line or boundary line of the planned development.
  - 7 There shall be no minimum interior side setback as long as fire separation standards are met.
  - 8. Lot coverage by buildings shall not exceed 60%.
  - 9 Maximum lot coverage by impervious surfaces is 95%.
  - 10. Maximum FAR is 1.1 except for non-retail uses.
  - 11 There is no maximum building size as long as fire standards and other site requirements, such as parking and landscaping, are met.
- B. Minimum Exterior Construction Standards, Building Materials and Design – Exterior Construction and Design Requirements shall comply with the standards set forth in Section 42 of the Comprehensive Zoning Ordinance, except as provided below.
  - 1 There shall be a compatible architectural framework in which individual tenant character may be expressed. All buildings including parking structures shall be finished on all sides in a compatible architectural concept and shall not detract from adjacent property

2. Ancillary support structures are to be of similar style, design, color, and material as that used for principal structures.
  3. Color schemes shall reflect a certain quality and expression consistent with the architectural character and design of the structure. Accent colors may be used to identify architectural features or highlight details. The use of primary or garish colors shall not be predominately used on the exterior facade of any structure. This shall not be intended to prevent or exclude a national or regional retailer from using their prototypes.
  4. Stand fans, skylights, cooling towers, communication towers, satellite dishes, vents, and any other structures or equipment, whether located on the roof or elsewhere, shall be architecturally compatible or effectively shielded from view from any public or private dedicated street by an architecturally sound method.
  5. Each commercial building, complex of buildings, or separate commercial business enterprises shall have a trash bin on the premises adequate to handle the trash and waste items generated, manufactured, or acquired thereon by such commercial activities. The sorting, handling, moving, storing, removing and disposing of all waste materials must be housed or screened from public view
  6. Building roofs shall be so designed and constructed to prevent water ponding and to shed water in a reasonable amount of time. Built-up roofs and roof-top items which include equipment, piping, flashing, and other items shall be maintained for continuity of the roof appearance.
  7. Roof top equipment, piping, flashing, and other items on the roof shall be screened by a perimeter parapet wall extending one foot taller than the tallest piece of roof equipment, so as not to be visible from roadways.
  8. In all cases, mechanical equipment on roofs and outcroppings should be clad by a like building material or painted with a color scheme similar to the principal structure walls or roof.
- C. Service, Loading and Storage - Loading dock areas, storage areas, storage tanks, trash containers and maintenance facilities, that are located between the face of the building and a property line fronting on a public street shall either be housed in closed buildings or shall, with the exception of driveway ingress/egress points, be screened from view from public roadways by the use of retaining walls, parapet walls, living screens and berms or a combination thereof
- D. Site Lighting
1. Lighting should be provided for vehicular, pedestrian, signage, architectural and site features.
  2. Site lighting fixtures used along entrance driveways and parking areas shall be uniform and a consistent design within the development. Lighting standards for illuminating these areas shall be no taller than 60 ft. high.
  3. The pattern of light pooling from each fixture shall be carefully considered to provide smooth, even lighting of driveways and parking, while eliminating undesirable glare or light intrusion into adjacent property outside of the planned development district. Parking areas shall have a minimum of 3-foot candles initial and a minimum average of 2-foot candle

on a maintained basis. Light sources shall be metal halide, mercury vapor or of similar color. Yellow/orange source lights are prohibited from use. Incandescent source lighting should be considered for pedestrian areas and near buildings.

4. Pedestrian walkways, courts, gardens and entrance areas shall be illuminated to enhance the pedestrian qualities of the development. Low level fixtures should complement the architectural design and focus on quality landscape lighting that will enhance the development.
5. General illumination shall commence one half hour before sunset and last until the Building Site is closed for the evening. Parking structures and pedestrian walkways shall be illuminated during all hours of darkness and when poor weather conditions warrant.

E. Signage and Graphics: Signage shall comply with the standards set forth in Section 48 of the Comprehensive Zoning Ordinance, except as provided below

1. General

- a. Monument signs - One (1) monument sign shall be allowed on each lot and shall be limited to a maximum area of 50 square feet.
- b. Pylon signs - Two (2) pylon signs shall be permitted. Each pylon sign shall be limited to a maximum area of 150 square feet.

2. Monument Signs

- a. Monument signs shall identify individual tenants or uses within a tract or lot. Monument signs shall be a maximum of twelve (12) feet tall.
- b. Monument signs shall be illuminated by means of either ground mounted flood lighting or internal letter illumination either face lit or reverse channel lit. Light fixtures should be screened from view in front of the sign.
- c. Monument signs shall be located at a set back distance of not less than eight (8) feet from the right-of-way line of any adjacent street and incorporated within the landscaping area or buffer
- d. Construction of monument signs shall include a base of material compatible with the material used for buildings.

3. Pylon Signs

- a. Pylon signs shall be constructed at a height not to exceed twenty-five (25) feet.
- b. The base of a pylon sign shall be located at a set back distance of not less than eight (8) feet from the right-of-way line of any adjacent street and may be incorporated within the landscaping area or buffer
- c. Pylon signs shall be illuminated by means of internal illuminated letters or back lit channel letters. Letter sizes and logo shall not exceed the bounds of the sign faces as limited above.
- d. Construction of pylon signs shall include a base of material compatible with the material used for buildings.

4. Tenant Exterior Signage

- a. Each tenant shall be allowed primary identification signs on the exterior of the premises as follows:
  1. Inline tenant - one (1) sign
  2. End cap tenant – two (2) signs
  3. Freestanding tenant- three (3) signs
- b. Secondary message signs shall be allowed.
- c. Rotating, box, can (individual lighted channel letters are permissible), flashing, noise making, odor producing, or back-lit canopy signs shall not be permitted.
- d. All materials and components used in the manufacture and installation of tenant's sign shall be new stock, free from defects that impair strength, durability and appearance. All signage material shall be of non-corrosive material or treated to be non-corrosive.
- e. Signs of individual tenants with rentable space equal to or in excess of 15,000 sq. ft. shall have a maximum height of letters of 6 feet.
- f. Signs for tenants of less than 15,000 sq. ft. but equal to or in excess of 5,000 sq. ft. shall have a maximum height of letters of 48 inches.
- g. Signs for tenants of less than 5,000 sq. ft. shall have a maximum height of letters of 36 inches.
- h. Each letter of any such sign shall be at least 4" wide and shall not project from the surface more than 15 inches. Each letter shall be fastened individually to the building with stainless steel pins.
- i. The maximum overall length of any tenant's installed storefront sign shall not exceed 75% of the storefront width. If the tenant's fascia length is less than the storefront width, such as at the corners, then the tenant's maximum sign length shall be the lesser of (a) 90% of the allotted space or (b) 75% of the storefront width. No portable signs shall be placed by any tenant on the exterior of the premises.
- j. Tenants shall be allowed to place the store address numerals on the front of the storefront using 3" high white vinyl numbers in the Helvetica Medium typeface. These numbers shall be mounted on the exterior storefront glass as directed by the U.S. Postal Service.
- k. Store logo or name (maximum 3" high) may be used on glass or a graphic band to identify glass with maximum height being 36" from the floor
- l. Tenant shall be required to place the name of the store on the rear service door in letters which shall be 3" high.
- m. No banners, posters, flyers or advertising material of any kind shall be permitted to be mounted on the exterior glass or upon any exterior wall surface or structure, except as provided below. Notwithstanding the above, if the tenant opens later than 30 days after the "Grand Opening" of the center, tenant shall be allowed one "Grand Opening" banner, limited in size to 50 sq. ft. Tenant shall have a permit for such banner if required by code.

- n. Any proposed sign in violation of the standards may be approved by the City of Forney Board of Adjustment.

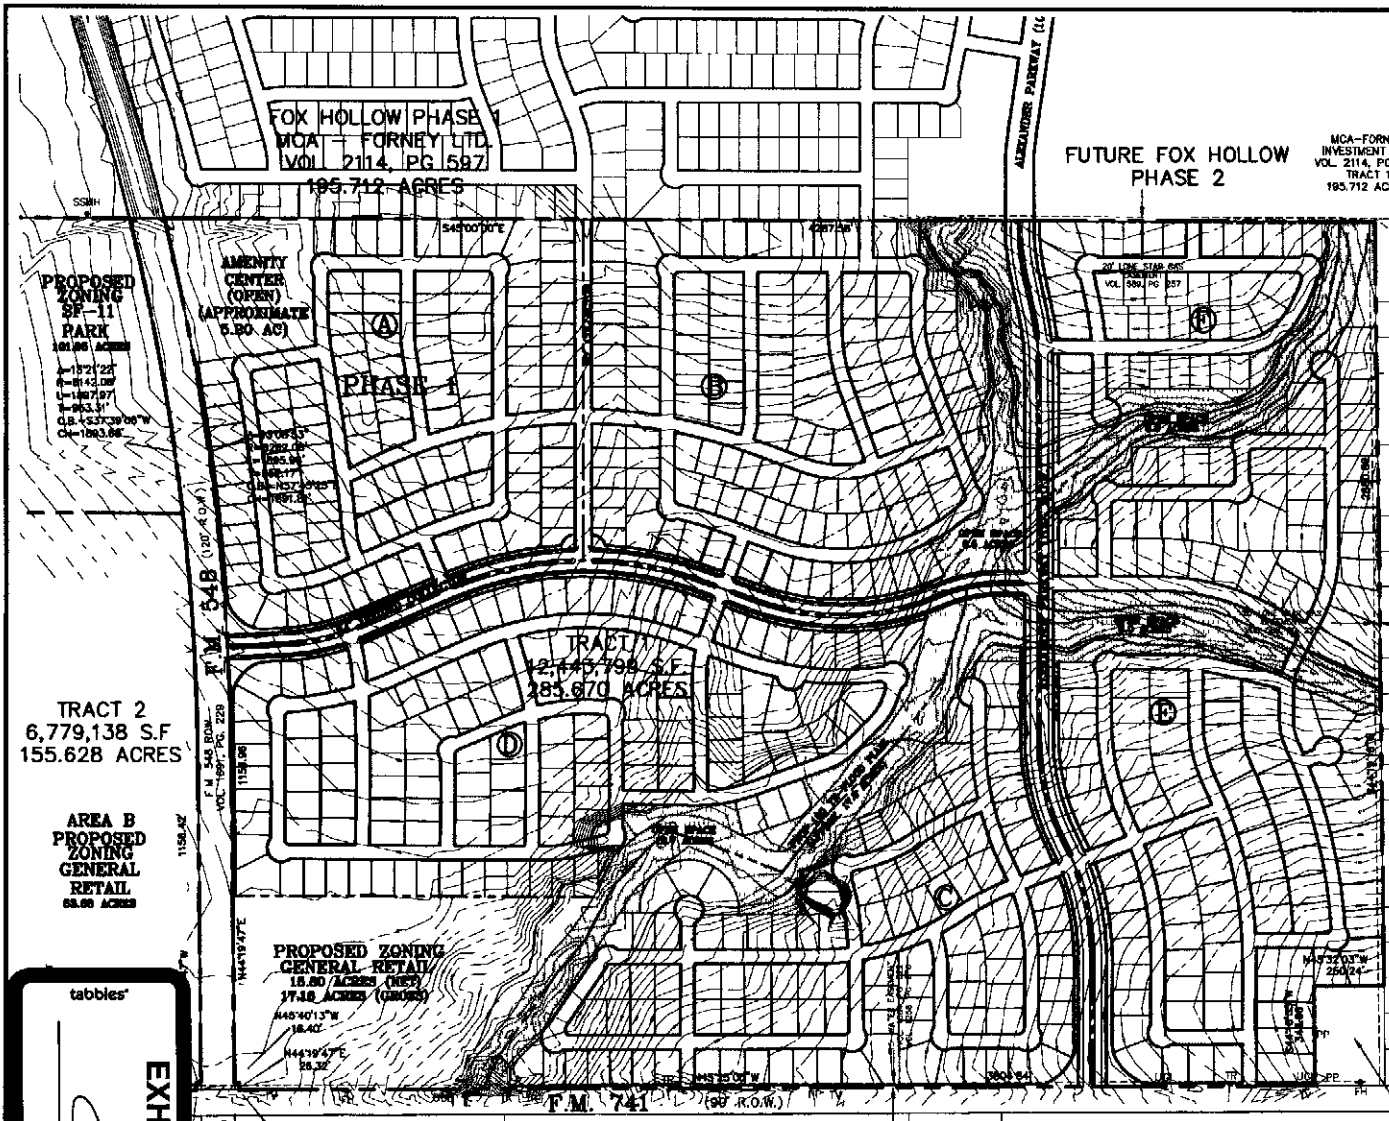

F Parking and Driveways:

- 1 Fire lanes, driveway, loading areas and access easements shall be paved in accordance with the minimum design standards of the City of Forney codes and ordinances in effect at the time of adoption of this planned development.
2. Required parking may be located anywhere on a lot or parcel on which the main structure is located. Required parking may also be located on an adjacent tract, lot or parcel within the planned development district provided a parking easement is shown on the plat for such tract, lot or parcel.
3. The number of required parking spaces shall be dependent upon the use and shall meet the requirements of the City of Forney ordinances.
- 4 No required parking space may be occupied by signs, cart corrals, merchandise, or display items at any time.

G. Landscape Standards:

- 1 All landscaping shall comply with the City of Forney standards as outlined in the City of Forney Zoning Ordinance Number 1085, as amended.
2. All planting shall be from the City of Forney approved plant list. In addition the following shall be allowed:
  - a. Miscanthus (Sinensis species)
  - b. Weeping Love Grass (Eragrostic curvula)
  - c. Mexican Feather Grass (Nassella tenuissima)
  - d. Mexican Wire Grass (Stipa tenuissima)
